## Update/Add Headers to Order Scheduler Left Navigation

### Table

SVA

### Columns

- SCHL\_TEIL: Line order
- SCHL\_NAME: Schedule name
- ANLAGE: Line
- SCH\_BEZ: Line name
- SCHL\_WERT: value used in SCHL\_BEMERKUNG to assign parent
- SCHL\_BEMERKUNG: assign parent
- SCHL\_BEZ\_KZ: Define Hierarchy
  - F: Top level
  - A: Line
  - G: Group

### Filter Query

```
SELECT SCHL_TEIL, SCHL_NAME, ANLAGE, SCHL_BEZ, SCHL_WERT, SCHL_BEMERKUNG, SCHL_BEZ_KZ
FROM SVA
WHERE SCHL_NAME = 'AGGT_KEY'
ORDER BY SCHL_TEIL;
```

### Description

If you want a new Header, for example 'Sheet Template', you define it in SCHL\_WERT, then 'assign' subsequent lines to it by setting this under SCHL\_BEMERKUNG

### Scenario: Move GALV1 line out of MOA group to display under 'Sheet Template'

1. Use the filter query to validate the current values
2. Locate GALV1 under ANLAGE column

3. Use below update statement to change the SCHL\_BEMERKUNG

```
UPDATE SVA
SET SCHL_BEMERKUNG = 'SHEET_TEMPLATE'
WHERE ANLAGE = 'GALV1' AND SCHL_TEIL = '12';
```

4. Verify expected changes were made by running the below query

```
SELECT SCHL_TEIL, SCHL_NAME, ANLAGE, SCHL_BEZ, SCHL_WERT, SCHL_BEMERKUNG, SCHL_BEZ_KZ
FROM SVA
WHERE SCHL_NAME = 'AGGT_KEY'
ORDER BY SCHL_TEIL;
```

5. Close and reopen the Order Scheduler UI
6. Verify that the expected changes were made in the UI
