

## Configure/Verify Phase 1 Parameters

### Order-Routing-Configurations : Order-Routing-Configuration

#### Initialization-Parameters : Initial-Parameters

1. Navigate to the 'Phase 1 Parameters' tab  
Phase 1 Parameters
2. Expand 'Order-Routing-Configuration : Order-Routing-Configuration'
3. Select 'Initialization-Parameters : Initial-Parameters'
4. Verify the below values are correct:
  - Maximum-Delivery-Item-Weight: -1
  - Minimum-Missing-Weight: 0
  - Maximum-Number-Of-Supply-Streams-Per-Item: 5
  - Supply-Stream-Cut-Off-Transportation-Score: 10000000272564224
  - Aggregate-Mus-With-Same-Availability-Date: CheckedInitialization Parameters

#### Solver-Parameters : Solver-Parameters

1. Select 'Solver-Parameters : Solver-Parameters'
2. Verify the below values are correct:
  - Due-Date-Cutoff-Score: 0
  - Due-Date-Bucket-Span: ;
  - Due-Date-Policy: Just-In-Time
  - Insert-Policy: Pull
  - Delivery-Time-Policy: Delivery At Due Bucket End Time
  - Maximum-Lead-Time-Spread: 50
  - Compute-Stock-Levels: Checked
  - Respect-Max-Residence-Time: Unchecked
  - Respect-Max-Target-Residence-Time: Unchecked
  - Respect-Productivity-Modifiers: Checked
  - Respect-Stock-Max-Constraints: Checked
  - Finite-Capacity-Default: Checked
  - Finite-Capacity-Exception: BlankSolver Parameters
